About QE Trim Coil

4

Why our Trim Coil feels different, out performs the competition and is able to enhance any project.

Our Colors

6

Our 28 system colors effortlessly match to our family of building products. Bringing you the most innovative color selection, we also offer 105 additional colors in Trim Coil only.

Siding Color Guide

10

Use this guide to match our Trim Coil line to some of today's most popular siding brands.

Window Color Guide

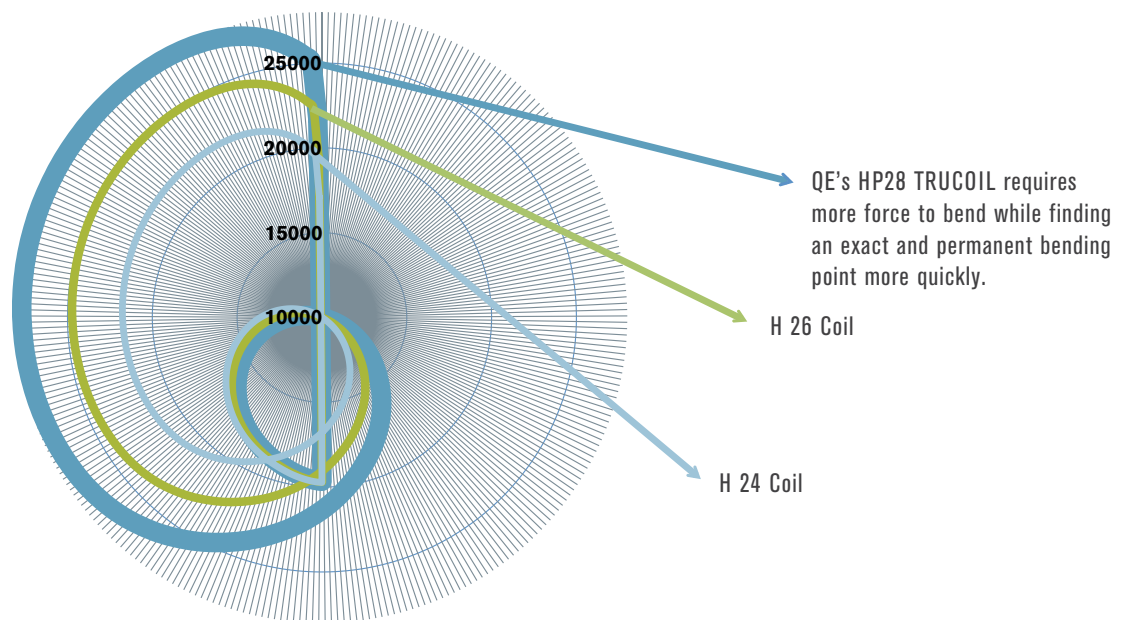

15

Use this guide to match our Trim Coil line to some of today's most popular window brands.

Feel the Difference

QE's High Performance HP28 Alloy has been designed and engineered for better performance in the brake and on the house.

We know that the only way to provide the **best products** in the world is to ensure that they're the best products for your family, home and our world.

105 colors to choose from that match today's most popular siding and window colors and 28 trim colors referred to as "System Colors" which are also available in soffit, fascia, drip edge, window casings, and rainwear.

That's why we consider the impact of everything we do on the environment and uncover opportunities to **make things better**. Which includes trim coil—every one of our trim coils start with recycled aluminum that is then titanium stabilized and annealed so you can feel the difference.

Sell the Value

NO-MAR Q5000 HIGH PERFORMANCE

QE was the first to introduce a NO-MAR® type paint system for use in exterior paint systems. Each NO-MAR® coil is made from a high performance titanium stabilized and specially annealed alloy for greater performance in the brake and on the house. QE's exclusive NO-MAR® paint finish offers an unmatched scratch resistant surface with better UV protection stain protection than other conventional paint systems.

- Pebble Finish
- HP28 Titanium Enhanced Alloy
- 20 Year Warranty
- Available 27 System Colors
- Hear, feel, see, and experience the difference with NO-MAR® High Performance Trim Coil

Q800 TuffTech HIGH PERFORMANCE FINISH

QE's TuffTech™ finish is designed to provide the kind of tough finish you need to resist peeling, cracking, chipping or delaminating. Many boast of a lifetime warranty, but in the fine print, some warranties only have a 25 year or less of coverage on important items like fading or chalking. Like the base alloy of NO-MAR®, each Q800 TuffTech™ coil is made from a high performance titanium stabilized and specially annealed alloy for greater performance in the brake and on the house.

- Smooth Matte Finish or Embossed Wood Grain
- HP28 Titanium Enhanced Alloy
- Lifetime Warranty
- Available in 28 System colors and 126 siding and window colors.
- Specially annealed so you can feel the difference.

TruCoil PVC HIGH PERFORMANCE FINISH

PVC paint systems are the least environmentally friendly of all the paint systems available today. However, in some markets contractors still desire a PVC finish because of the striated texture paint.

- Striated Finish
- HP28 Titanium Enhanced Alloy
- 20 Year Warranty
- Available in 28 System Colors

IsoCoil CORROSION RESISTANT TRIM COIL

QE was the first to develop a coil for covering ACQ treated lumber. QE's composite trim coil offers a laminated film that provides a layer of protection between the lumber and the coil itself.

- Smooth Matte Finish
- HP28 Titanium Enhanced Alloy
- 20 Year Warranty
- Available in 4 colors
- Specially laminated film on the back of every coil.

BUILDERS TRIM COIL

BUILDERS Trim Coil has been designed and engineered for you to compete with common trim coils.

- Smooth Matte Finish
- Available in our most popular nine colors
- 20 Year Warranty
